

Within the past year, the Waltrip High School has accomplished tremendously in several areas of improvement. Just to name a few: 1. the number of participating music students have increased, 2. more available and choice of instruments for students, 3. instilled more interest and involvement in the program, 4. and a definite change of student reaching short-term goals in music performance.

It is indeed my pleasure and sincere appreciation to the MHOF for its contribution and interest in young musicians.

I feel that your efforts in this matter will make a strong impact in the present and future. THANK YOU!!

Sincerely,

Charles Stephens (Director of Band)
