

Music and Me

By Elijah Duncan

While the world around me sings
I hear music everywhere
A vibrant tune begins to ring
Like an old, old rocking chair
From the oceans to the trees
With the honey and the bees
As the grass brush on my knees
There is music yet to share.

Now and then, I'd let it out
And play a song so sweet and free
Soon enough I'll laugh and shout
And I'll become what I want to be
From the sparrow to the frog
Perched up high upon a log
Though the sky begins to fog
It's just music and me.

MUSIC

By Monica Fernandez

M making a person smile, cry,
or laugh... emotion they are
feeling show.

U urge to start a learning how
to play an instrument and
create a song no matter how
old a person is.

S singing is a part a life.
whether your doing in on
stage, in the music booth, in
the car or in the shower.

I Influences a person to create
something that will change
another person's view point
on life and its beauty.

C change.. being different and
knowing that as long as you
love to do something you
can do it.
